HuskyLEAD is a leadership development series for all Michigan Tech students.

This program encourages all students - from campus leaders and student organization officers to individuals who just want to learn - to elevate their leadership skills by learning the best techniques, tips, and tricks for their personal, organizational, academic, and professional success.
The LeaderShape® Institute is an intensive week-long leadership development experience that is designed to help young leaders learn to “lead with integrity”. This highly interactive and energizing program provides the tools for individuals to:

- Act consistently with core ethical values, personal values, and convictions
- Develop and enrich relationships
- Respect the dignity and contribution of all people
- Believe in a healthy disregard for the impossible
- Produce extraordinary results
Utilizing highly interactive program methods rather than classroom lectures, everyone is a teacher and everyone is a learner. At the LeaderShape® Institute, participants create a LeaderShape® Breakthrough Blueprint they can begin to implement as soon as they leave. The objective of each participant’s blueprint is to produce extraordinary results in their organization and their institution during the next nine to 12 months.

January 7-12, 2019

Applications available in October!
